

Excel VBA Advanced

Target Audience

This course is the last in our series of 3 courses exploiting Visual Basic programming within Excel. It covers the major subject of interacting with databases, including Access and others, using many practical examples. It also covers how your work can be used as a distributable and reusable solution, including making it an Excel Add-In.

The Content

Databases and ADO

- * What is a database, and how can it interact with Excel?
- * Microsoft's database technologies
- * Active Data Objects – ADO
- * Adding references
- * Connecting to a database – using connection strings
- * Returning data using Recordsets
- * Reading column values
- * Adding data
- * Building and executing SQL
- * Taking it further

Creating an Add-In

- * Project properties
- * Protection and security
- * Using macros from shortcut menus
- * Creating an Add-In
- * Saving Add-Ins
- * Using Add-Ins
- * Auto_Open and Auto_Close
- * Distributing Add-Ins

Delegate Pre-Requisites

Aimed at delegates with experience of using Excel VBA preferably having attended the Excel VBA The Next Level course

Course Duration

This is a One Day Course

Course Details

Courses commence at 9:30 a.m. through to 4:30 p.m.

A laptop computer is provided for each delegate attending on this packed programme to try out the tips and techniques demonstrated

All delegates will receive Training Courseware to refer to during the course, together with a Course Attendance Certificate

Schedule Courses

Off-site scheduled courses are available at a location near you - this course is available on our current programme - call our team for more details

Corporate Courses

On-site Corporate courses are available - you provide the Conference Room ... we bring everything else!

Modular Courses

Bite-sized 'modular' courses are available where you can build your own day course covering the topics that suit you - these are half day modules that you can mix and max

Call us on 01527 836840

Our team will be happy to give you the options and pricing
